Experience

Full Stack Development Intern, VStand4U Technologies 02/2026 – 05/2026

- Completed a 15-week internship in Full Stack Development using Java and Python.
- Developed web applications by integrating frontend and backend technologies.
- Worked on AI-powered solutions and automation-driven workflows.
- Gained hands-on experience in software development, API integration, and database operations.

Education

B.E. in Artificial Intelligence and Machine Learning, 2023 – 2026
Basaveshwar Engineering College, Bagalkot

Diploma, *Government Polytechnic for Women, Hubballi* 2019 – 2023

SSLC, *Navanagar Rotary English Medium School, Hubballi* 2019

Skills

Languages Python, JavaScript	Web HTML, CSS, Node.js, REST APIs
Database SQL, MongoDB	Frameworks Flask, Django, PyTorch
Tools Git, GitHub, Selenium, n8n	Concepts Data Structures, Machine Learning

Projects

Smart Vehicle Monitoring and Driver Drowsiness Detection, Python, OpenCV, Dlib, Pygame

- Developed an AI-based driver monitoring system to detect drowsiness.
- Implemented Eye Aspect Ratio (EAR) analysis to identify fatigue.
- Detected yawning using facial landmark tracking and lip-distance measurement.
- Generated real-time audio alerts using Pygame.

AI-Powered Adaptive Learning Engine for Quizzes & Media Recommendations, LLMs, n8n

- Developed an adaptive learning platform using Large Language Models.
- Delivered personalized content recommendations and quizzes.
- Implemented automated progress tracking features.

Classroom Attendance Using Face Recognition, Python, OpenCV

- Built a real-time face recognition-based attendance system.
- Automated attendance marking and record management.
- Improved accuracy of student attendance tracking.

Certifications

- Full Stack Development Using Java & Python Powered by AI – VStand4U Technologies (15 Weeks Internship)
- Privacy & Security in Online Social Media (NPTEL)
- Interactive Course on Python and C++
